## INTRODUCTION

Established in the year 1992, we are manufacturing hydraulic cylinder. We are the leading Vendor of PTL (Swaraj Tractors) for six years. After the heavy market demand we started manufacturing of Agriculture Implements and Rotavator Gear Box from 2004 in Punjab, India. We supply our material all over India. Our product quality is excellent. We had received good response for the Gear box from rotavator manufacturers all over India and started the manufacturing of rotavator complete parts kit in the year 2013.

We are using latest machinery like HMC, VMC, CNC, Welding Machine, Plasma, CNC Multi Drill Machine, Gear Hobbing, Cylindrical Grinder and other machinery imported from USA, Germany, Korea, Japan and across from the India. We are using latest equipments for manufacturing. We have high level Testing Labs and well qualified quality check team as well for testing the material quality to make our product more reliable and trustworthy. Our factory area is 11500 square yards. We have experienced staff in production section and best management team as well as to manage the whole system.

J. D. Group, under the guidance of Managing Directors Mr Jaspal Singh & Mr. Darshan Singh enjoys the distinction of being the first company of the country, who made all kind of Agriculture Implements, Rotavator Gear Box and Parts & Mulchar Gear Box. The patent is registered with the Government of India in the name **JDGEARS, AGRICO**.

Today, the group has the manufacturing capacity of 160-170 gear box of rotavator & other gear box per day and storage capacity of 3000 gears boxes, thereby ensuring uninterrupted supply of quality end product to the customers.

## From the Managing Director's Desk

It is truly universally acknowledged that the ultimate objective of all business & professional activities is customer delight. Everything has to fall in place to lead this goal. Keeping this and this alone in mind "**AGRICO**" is determined to offer innovative farming solutions as well as extend excellent & responsive customer support wherever and whenever needed. Our core values are supported by strong structure where world class practices are followed for staying ahead of times you need to continuously reinvent yourself and your products and that are exactly what we try to do.

**OUR VISION** is to build the organization relentlessly and adds value in what it does (i.e. products) and for whom it does (i.e. customers) & throw to whom it does (i.e. employees).

**MISSION** is to be a front runner in offering innovative, user friendly and environmentally sustainable farming solutions to the farmers around the globe.

In accomplishing our vision and mission our suppliers, channel partners, corporate clients and our work force play a key role and are accorded with respect and recognition as they make us who we are and who we aspire to be.
